
Formbend Ltd accepts that the company has a responsibility to respect the environment and undertakes to comply with the Environmental Protection Act 1990 and the Environmental Act 1995 and approved codes of practice to those Acts.

Formbend Undertakes:

- **To minimise and disturbance to the local and global environment and to the quality of life of the local communities in which it operates, to be a good neighbour and responsible member of society.**
- **To comply fully with all the statutory regulations controlling the company and any sites which it operates.**
- **To maintain the appearance of the companies premises to the highest practical standards.**
- **To take positive steps to conserve resources, particularly those which are scarce or non-renewable.**
- **To minimise production of waste, to re-use and recycle wherever possible and to store and dispose of waste according to the Environmental Protection Act Duty of Care.**
- **To assess, as far as possible the environmental effects of any new developments and adjust the company's plans accordingly.**
- **To provide the information necessary to enable the company's products to be properly used, stored and disposed of as to avoid unacceptable effects on man or the environment.**
- **To provide the necessary information necessary to enable employees to operate the process properly and with minimal effect on man or the environment.**
- **To develop an open and effective relationship with regulatory authorities, the local community and its representatives.**
- **To regularly review and amend the policy as necessary.**
